## AP Solver6 #4 Sketch & Write:

### Sketch & Write:

Use **NOUNS (Who & Where)** & **VERBS (Action)** to share an experience you've had near the ocean. What beach were you at, who was with you and what did you do there?

### Reflect:

Use the experience you've had with your class discussing the challenges facing our oceans. How can *you* contribute to making the ocean healthier? Who will benefit from your choices and how will it make the person or creature feel?
