

“A community partnership helping build GOOD PEOPLE who DO GOOD things.”

AP YOUNG STEWARD ADDYSON’S ART PROJECT

Our AP Young Steward, Addyson LOVES ART! She especially loves doing art while she watches documentaries! This project is sure to inspire water stewards, from the *littlest* to the *biggest!* Partner this activity with APYS, Addy’s activation page video!

Needed Supplies:

Addy’s ART TEMPLATE and desired art medium(s)

As a mentor, prompt your steward(s), to think about their favorite beach and why they LOVE IT so much. Ask them a few questions that help them use their imagination, and how it makes your steward(s) FEEL to visit this beach. Then, have your steward(s) think about their favorite toy or snack AND the ONE USE PACKAGING it has. Ask your steward(s) to imagine unwrapping this item and JUST TOSSING THE WASTE right onto their favorite beach! (YIKES!) What would happen to the waste? Would it fly away? Will an animal mistake it for food? How long will it stay on the beach? Would it end up in the sea? Will it sink or break down?

Now, have your steward(s) imagine that their whole (class, school, neighborhood, etc.) threw all their waste from the packaging of their favorite snack or toy onto the steward’s favorite beach! IMAGINING WHAT IT WOULD MAKE THEIR FAVORITE BEACH LOOK LIKE & HOW IT WOULD MAKE THEM FEEL.

Now offer your steward(s) art mediums and Addy’s template to share their feelings. Fold the template into three sections: in section 1, steward(s) will draw the waste filled beach with a visual of their feelings (ie: sad stick man), in the center section, stewards write the 5 things Addy says we can do to help (Refuse, Reduce, Reuse, Recycle, Activate). On the final section, stewards draw their favorite beach, the activities they love to do there, who they are with and how it makes your steward(s) feel. *A YOUNG steward version of the template is provided with Addy’s *5 Things We Can Do to Help*, already written in.

DON’T FORGET TO SHARE YOUR EXPERIENCE

Outreach is key for sustainable solutions! When you activate stewardship using AP Young Steward Addyson’s TOOLS & HELPERS, SHARE YOUR EXPERIENCE and **be sure you TAG @AddyPresLFstyle #AddyPresInspires!**

ART with AP Young Steward, Addyson (*YOUNG stewards* version, PRINT LANDSCAPE)

A WASTE-FILLED Beach Makes
Me FEEL _____,

BECAUSE: _____

I can PARTICIPATE in keeping
marine habitats HEALTHY!
Addy's 5 things we can do to help:

REFUSE single-use plastic

REDUCE the plastic I BUY &
USE.

REUSE the plastic that is already
here.

RECYCLE by learning about proper
sorting and waste management.

PARTICIPATING & ACTIVATING
Sustainable Solutions in my own
Community, like the TOOLS &
HELPERS found on an APYS
Activation Page!

I LOVE visiting my FAVORITE
BEACH with:

We do FUN things like:
