## MENTORING AS AN ADULT HELPER TO ACTIVATE AP YOUNG STEWARD INITIATIVES

Thank you for your interest and dedication to activate sustainable solutions AS A MENTOR in your community or school with our AP Young Stewards! When activating, please feel free to partner your creativity with the following script tool and APYS ACTIVATION videos, available on the individual APYS activation pages! We recommend utilizing an overhead display of the AP Young Steward’s Activation Page and it’s APYS main video. You can activate as many initiatives as you like!

COLLEGE STUDENTS can gain volunteer credit from AddyPresFoundation when they activate APYS initiatives with youth as a MENTOR! To participate as a mentor, please contact AP from the e-form located on the APYS MAIN PAGE SECTION: Schedule an APYS Impact Visit. We will then follow up with an access code to our private video page (link is located in the same section as the e-form) where you can watch a short video that helps you plan a local visit. We will also contact the school district you note as your choice visit. Once you’ve been approved to ACTIVATE with a class, campus or group to participate utilizing the TOOLS & HELPERS from an AP Young Steward’s Activation Page, post your activation experience and tag: @AddyPresIfStyle (Instagram & Facebook) so we can congratulate and thank the young stewards you inspired, then CONTACT AddyPres to tell us about your impact and gain volunteer credit for your participation!
