A Venn diagram consisting of three overlapping circles. The top circle is labeled 'EDUCATION'. The bottom-left circle is labeled 'TOOLS & PLATFORMS'. The bottom-right circle is labeled 'NETWORKS'. The intersections of the circles are shaded in a lighter gray than the individual circles, which are a medium gray. The central intersection where all three circles meet is the darkest shade of gray.

About

The [Center for Green Schools](#) at USGBC proudly presents the Green Classroom Professional (GCP) certificate program. The GCP certificate program provides pre K-12 educators and school staff with the knowledge to identify what supports or impedes healthy, resource-efficient and environmentally sustainable learning spaces.

The course consists of 12 self-guided, interactive modules that allow participants to enter and exit the program on their own schedule within a 365-day window, and takes about two hours to complete. For more information about the online course, please see the [GCP Program Handbook](#).
